EDUCATION

KIET Group of Institutions <i>B.Tech in Computer Science and Engineering (Artificial Intelligence)</i>	Ghaziabad, UP 2024 – 2028
Delhi Public School, Lagma <i>Intermediate Education; Percentage: 84.4%</i>	CBSE 2023
Saraswati Vidya Mandir, Sitamarhi <i>Matriculation; Percentage: 90.2%</i>	CBSE 2021

TECHNICAL SKILLS

Languages: Python, C++, C, SQL
AI/ML: LLMs, RAG, LangChain, LangGraph, NLP, Computer Vision, Vector Databases (FAISS, ChromaDB), Prompt Engineering, Agentic AI
Tools & Frameworks: Flask, FastAPI, React, TypeScript, REST APIs, WebSockets, Git, SQLite
Core CS Fundamentals: Data Structures & Algorithms (C++), OOP (Java), DBMS, OS, System Design

PROJECTS

- ShadowByte / CognitiveSB** | *LangChain, LangGraph, RAG, FAISS, Flask, React, SQLite*
- Built a full-stack AI study companion ingesting PDFs, DOCX, and YouTube transcripts into a FAISS vector store via a LangGraph RAG pipeline with SSE streaming chat.
 - Auto-generated structured notes, LLM-graded short-answer quizzes, MCQs, and an interactive knowledge graph from uploaded study material using Groq-hosted LLMs.
- Aira: Intelligent AI Chatbot** | *Flask, RapidFuzz, Python*
- Engineered a Flask-based assistant using RapidFuzz for similarity-based query matching (≥60% score).
 - Implemented dual-layer memory (short-term context and long-term JSON storage) for session persistence.
 - Designed a dynamic learning engine that extracts and stores user patterns from a manual knowledge base.

CERTIFICATIONS & ACHIEVEMENTS

- **AWS Certified Cloud Practitioner:** Validated foundational expertise in AWS cloud services and infrastructure.
- **AI Primer – Infosys:** Comprehensive training in Artificial Intelligence and machine learning fundamentals.
- **Machine Learning Specialization – Coursera:** Advanced study of supervised/unsupervised learning and neural network optimization.
- Actively building AI/NLP applications and solving 150+ DSA problems on coding platforms.
